# Annual Financial Report

For the Year Ended August 31, 2007

November 20, 2007

The Honorable Rick Perry, Governor  
John O'Brien, Director, Legislative Budget Board  
John Keel, CPA, State Auditor

Gentlemen:

We are pleased to submit the *Annual Financial Report* for the Comptroller of Public Accounts, the Comptroller's Judiciary Section, the Comptroller's Fiscal Programs, the Comptroller's Treasury Operations Fiscal Agency, the Texas Safekeeping Trust Company, and the State Energy Conservation Office for the year ended August 31, 2007, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Robert Chapa, manager of Budget and Internal Accounting, by e-mail at [robert.chapa@cpa.state.tx.us](mailto:robert.chapa@cpa.state.tx.us) or by phone at 463-4762.

Sincerely,

Susan Combs

c: Robert Chapa

# Notes to the Financial Statements

## NOTE 1: Summary of Significant Accounting Policies

### ENTITY

---

The Comptroller of Public Accounts is an agency of the State of Texas.

The Comptroller's financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Comptroller's office has three major statutory duties. First, the Comptroller serves as the state's primary tax collector, responsible for collecting most major state taxes. Second, the Comptroller is the state's chief accountant, responsible for writing the state's checks and monitoring all spending by state agencies. Third, the Comptroller is the state's official revenue estimator, responsible for issuing an estimate of revenues that will be available to the state over the upcoming two-year budget period.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

This section of the report includes only those funds and accounts from which the Comptroller's own departmental activities are financed. The fiscal functions of the Comptroller's office are reported in separate sections of this report.

There are no component units in which the Comptroller of Public Accounts is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

### FUND STRUCTURE

---

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

#### GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

##### *General Revenue Fund*

The General Revenue Fund (Fund 0001) is the principle operating fund used to account for most of the state's general activities. It accounts for all financial resources except those required to be accounted for in other funds.

##### *Capital Assets Adjustment Fund Type*

The Capital Assets Adjustment Fund (Fund 9998) will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

##### *Long-Term Liabilities Adjustment Fund Type*

The Long-Term Liabilities Adjustment Fund (Fund 9997) will be used to convert governmental fund types' debt from modified accrual to full accrual.

## FIDUCIARY FUND TYPES

### *Agency Funds*

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. They are as follows: Unappropriated General Revenue (Fund 1000), Direct Deposit Correction Account (Fund 0980), Texasaver 401K plan (Fund 0942), Savings Bond Account (Fund 0901), and Departmental Suspense (Fund 0900).

## BASIS OF ACCOUNTING

---

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, and unpaid Employee Compensable Leave. The activity will be recognized in these fund types.

## BUDGET AND BUDGETARY ACCOUNTING

---

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

## ASSETS, LIABILITIES, AND FUND BALANCES / NET ASSETS

---

### ASSETS

#### *Cash and Cash Equivalents*

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

#### *Current Receivables – Other*

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

#### *Inventories*

Consumable inventories include supplies and postage on hand at year-end. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

#### *Capital Assets*

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all “exhaustible” assets. “Inex-

haustible” assets such as works of art and historical treasures are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

## **LIABILITIES**

### ***Accounts Payable***

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

### ***Employees’ Compensable Leave Balances***

Employees’ Compensable Leave Balances represent the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

## **FUND BALANCE/NET ASSETS**

The difference between fund assets and liabilities is ‘Net Assets’ on the government-wide, proprietary and fiduciary fund statements, and the ‘Fund Balance’ is the difference between fund assets and liabilities on the governmental fund statements.

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

### ***Reserved for Encumbrances***

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

### ***Reserved for Consumable Inventories***

This represents the amount of supplies, postage and prepaid assets held to be used in the next fiscal year.

### ***Reserved for Imprest Accounts***

This represents the balance of the travel advance account in the amount of \$25,000.00, and the petty cash accounts, in the amounts of \$150.00 each, held at the various offices.

### ***Invested in Capital Assets, Net of Related Debt***

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

### **Unreserved/Undesignated:**

This represents the funds that can be carried forward for future operations.

## **INTERFUND ACTIVITIES AND BALANCES**

The Comptroller’s office has the following types of transactions between funds:

- (1) Transfers: Legally required transfers that are reported when incurred as ‘Operating Transfers In’ by the recipient fund and as ‘Operating Transfers Out’ by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund Activity: The composition of the agency’s Interfund activities and balances are presented in Note 8.

## NOTE 2: Capital Assets

Revenue Received from the sale of Surplus Property has been transferred to Unappropriated General Revenue in accordance with HB7, Section 20.

A summary of changes in Capital Assets for the year ended August 31, 2007, is presented below:

## NOTE 3: Deposits, Investments & Repurchase Agreements

The Comptroller of Public Accounts is authorized by statute to make investments following the “prudent person rule.” There were no significant violations of legal provisions during the period.

### Deposits of Cash in Bank

As of August 31, 2007, the carrying amount of deposits was \$25,000, as presented below:

- A. The carrying amount of \$25,000 for Cash in Bank represents the Comptroller’s travel advance fund.
- B. The bank balance of the Comptroller’s Office has been classified according to the following risk categories:
  1. **Category 1** - Insured or collateralized with securities held by the governmental entity or by its agent in the name of the governmental entity.
  2. **Category 2** - Collateralized with securities held by the pledging financial institution’s trust department or agent in the agency’s name.
  3. **Category 3** – Uncollateralized (which would include any deposits collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the governmental entity’s name).

### Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

## NOTE 6: Capital Leases

(Not Applicable)

## NOTE 7: Operating Leases

Included in the expenditures reported in the financial statements are the following amounts of rent paid or due under operating leases:

## NOTE 8: Interfund Balances/Activities

As explained in Note 1 on Interfund Activities and Balances, there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables
- Due From Other Agencies or Due To Other Agencies
- Due From Other Funds or Due To Other Funds
- Transfers In or Transfers Out
- Legislative Transfers In or Legislative Transfers Out

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

Individual balances and activity at August 31, 2007, follows:

	Due From Other Agencies	Due To Other Agencies	Source

## NOTE 1: Summary of Significant Accounting Policies

### ENTITY

---

The Comptroller's Judiciary Section is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Agencies.

The Comptroller's Judiciary Section is responsible for paying the salaries of the district judges and district attorneys of Texas. The agency also pays miscellaneous expenses incurred by the judges and District Attorneys as provided by the General Appropriations Act.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Comptroller's Judiciary Section is financially accountable or any organization whose exclusion would create misleading or incomplete financial statements.

### FUND STRUCTURE

---

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

#### GOVERNMENTAL FUND TYPES

##### *General Revenue Fund*

The General Revenue Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

##### *Special Revenue Funds*

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

#### FIDUCIARY FUND TYPES

##### *Agency Funds*

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

## **BASIS OF ACCOUNTING**

---

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that will build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

## **BUDGETS AND BUDGETARY ACCOUNTING**

---

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

## **ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS**

---

### **ASSETS**

#### ***Cash and Cash Equivalents***

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

### **LIABILITIES**

#### ***Accounts Payable***

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

### **FUND BALANCE/NET ASSETS**

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

#### ***Reserved for Encumbrances***

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

#### ***Unreserved/Undesignated:***

This represents the unappropriated balance at year-end.

## **INTERFUND ACTIVITIES AND BALANCES**

The Comptroller's Judiciary Section has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.

- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or so on thereafter it is classifieds “Current”, repayment for two (or more) year is classified as “Non-Current”.

The composition of the agency’s Interfund activities and balances are presented in Note 8.

### **EMPLOYEES’ COMPENSABLE LEAVE**

---

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee’s resignation, dismissal or separation from State employment, provided the employee has had continuous employment with the State for six months. The employees paid through the Comptroller’s Judiciary Section, Agency 241, are not eligible for state compensable leave. They are covered in their individual court or county. The Comptroller’s Judiciary Section does not show any Compensable Leave liability for these employees.

## **NOTE 6: Capital Leases**

## **NOTE 7: Operating Lease Obligations**

(Not Applicable)

## **NOTE 8: Interfund Balances / Activities**

As explained in Note 1 on Interfund Transactions and Balances there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Due From Other Agencies or Due To Other Agencies
- Due From Other Funds or Due To Other Funds
- Transfers In or Transfers Out

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

# Notes to the Financial Statements

## NOTE 1: Summary of Significant Accounting Policies

### ENTITY

---

The Comptroller - Fiscal is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements of State Agencies.

This report applies to those funds, which the State Comptroller of Public Accounts is statutorily required to expend, transfer, allocate or administer as trustee. Included are the funds and accounts over which the Comptroller exercises statutory administrative control, which includes revenues, collected for the benefit of others. The operating activity of the Comptroller of Public Accounts (Agency 304) is included in a separate section of this report.

There are no component units in which the Comptroller - Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34 *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

### GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

---

#### General Fund

The General Fund is used to account for all financial resources of the state except those that must be accounted for in another fund. Listed below are the agency’s General Funds and their purpose.

**General Revenue Fund 0001** – To receive those revenues directed to be deposited to the General Revenue Fund and those revenues for which a specific fund has not been designated; such revenues to be used as the Constitution prescribes and the Legislature directs.

**Law Enforcement Officer Standards and Education Fund 0116** – To receive court costs collected from defendants convicted under certain sections of the Penal Code.

**Compensation to Victims of Crime Auxiliary Fund 0494** – This is used only for the payment of compensation to claimants under the Victims of Crime Act.

**Telecommunication Infrastructure Fund 0345** – To receive annual assessment from each telecommunications utility and commercial mobile service provider at a certain specified rate of the taxable telecommunications receipts of each telecommunications utility and commercial mobile service provider.

**Economic Stabilization Fund 0599** – To receive transfer of one-half of any unencumbered positive balance in the General Revenue Fund (0001) on the last day of the preceding biennium and any other money appropriated to the fund by the legislature. The fund may be used to eliminate temporary cash deficiency in the General Revenue Fund (0001).

**Motor Sports and Racing Trust Fund 0839** – This fund receives a portion of the state and local sales, hotel and mixed beverage taxes from a site selected for a motor sports racing event. Fund may also receive pledged surcharges from user fees charged to local government.

**Other Events Trust Fund 0869** – Used to fulfill joint obligations of the state and endorsing municipality or county to a site selection organization under a games support contract.

**Agency Trust and Suspense Fund 0900** – To provide a temporary depository for money held in suspense pending final disposition. Items held in the fund are cleared to the various Special Revenue Funds or the General Revenue Fund, or refunded to the payer.

**Tobacco Settlement Fund 5040** – To receive settlement money resulting from the final judgment in the State of Texas v. The American Tobacco Company, et. al., civil action no. 5:96cv91. These funds are distributed to appropriate agencies and funds as identified in the court ordered settlement.

### ***Special Revenue Funds***

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Listed below are the agency's Special Revenue Funds and their purpose.

**County and Road District Highway Fund 0057** – To take care of outstanding county and road district indebtedness assumed by the State along with the highway system. The Fund also receives allocation to the "Lateral Road Fund", which in turn is distributed to the counties of the State.

**Texas Excellence Fund 0347** – To provide funding to promote increased research capacity and to develop institutional excellence at eligible general academic teaching institutions in order to ensure that Texas and its workforce remain at the forefront of scientific and technological innovation.

**University Research Fund 0348** – To provide funding to promote increased research capacity and to develop institutional excellence at eligible general academic teaching institutions. The legislature shall appropriate or provide for transfer each year of an amount equal to the amount deposited to the credit of the Texas Excellence Fund (0347).

**Tobacco Settlement Receipts Fund 0810** – Earnings, gifts, and grants contributed to the fund may be appropriated and distributed to specified health-related institutions of higher education only for programs that benefit medical research, health education or treatment programs. The corpus of the fund may not be used for any purpose. This fund was established from money transferred at the discretion of the Legislature, gifts and grants contributed to the fund and returns received from investment of money in the fund.

**Binding Arbitration Trust Fund 0838** – This is used to retain the administrative costs in binding arbitration cases of property value appeals initiated by property owners

**International Fuels Tax Agreement (IFTA) Trust Fund 0886** – To receive motor fuels taxes estimated to be due to other jurisdictions or otherwise subject to refund during the fiscal year, penalties and interest on those taxes due other jurisdictions, licensing fees, and other costs collected under the agreement.

**Property Tax Relief Fund 0304** – Special fund in the state treasury outside the general revenue fund. The proceeds of the fund are from allocations of the computation of motor vehicle sales tax, collection of all tobacco products tax increases and calculated amounts from franchise taxes (to start in FY08). The intent of the fund will be to reduce school district property taxes.

## **FIDUCIARY FUNDS**

### ***Private-Purpose Trust Funds***

Private-Purpose Trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments. Listed below are the agency's Private Purpose Trust funds and their purpose.

**Private Purpose Tobacco Settlement Political Subdivision Trust Fund 0872** – To hold a portion of the tobacco settlement money designated for the exclusive benefit of political subdivisions and will be distributed to political subdivisions as directed in the settlement.

**Flood Area School and Road Trust Account 0903** – To hold money allocated by the Federal Government to be distributed to counties and political subdivisions of the state based on the tax rate applied to lands acquired for flood purposes.

#### ***Agency Funds***

Agency Funds are used to account for assets held as an agent for individuals, private organizations, and other government entities. These funds are custodial in nature and do not involve measurement of results of operations. Listed below are the agency's Agency Funds and their purpose.

**Fireworks Tax Securities Trust Fund 0862** – An applicant for a fireworks sales tax permit or for registration as a retailer must file adequate security for the payment of the taxes imposed by this chapter.

**Customs Brokers Bond / Security Trust Fund 0866** – Created to hold bonds or securities from which the customs broker intends to issue exemption certificates.

**Texas Racing Commission Security Trust Fund 0868** – Created to hold securities posted by each racing association as required by the comptroller rule to ensure payment of the state's portion of the pari-mutuel pool.

**Other Events Trust Fund 0869** – To retain a portion of the state and local sales, hotel, and mixed beverage taxes, if a site is selected, in an amount as determined by the comptroller, to the presentation of a game and related events. Used to fulfill joint obligations of the state and endorsing municipality or county to a site selection organization under a games support contract.

**Local Tax Collections for Sports / Community Venue Project Trust Fund 0874** – To hold taxes collected by the Comptroller under an interlocal contract for a local government until they are returned to the local government's venue project fund. Taxes are to be used for sports or community venue projects.

**City, County, MTA and SPD Sales Tax Trust Account 0882** – To record the receipt of local sales and use tax collected by the Comptroller for each city, county, metropolitan transit authority and special purpose district authorizing the collection.

**International Fuels Tax Agreement (IFTA) Guarantee Trust Fund 0884** – To hold in trust money or securities deposited with the Comptroller by participants in the International Fuels Tax Agreement.

**International Fuels Tax Agreement (IFTA) Fund 0886** – To receive motor fuel taxes estimated to be due to other jurisdictions or otherwise subject to refund during the fiscal year, penalties and interest on those taxes due other jurisdictions, licensing fees, and other costs collected under the agreement.

**Departmental Suspense Fund 0900** – To provide a temporary depository for money held in suspense pending final disposition. Items held in the fund are cleared to the various Special Revenue Funds or the General Revenue Fund, or refunded to the payer.

**Motor Fuel Distributors Bond Guaranty Trust Fund 0904** – To hold in trust money or securities deposited by motor fuel distributors, in lieu of surety bonds, to insure complete and faithful performance by the distributor of all conditions and requirements imposed upon him by the laws pertaining to motor fuel and motor fuel distributors.

**Mixed Beverage Tax Guaranty Trust Fund 0906** – To hold in trust money or securities deposited by mixed beverage permittees.

**Sales Tax Guaranty Trust Fund 0962** – To receive cash and/or other negotiable securities pledged to guarantee payment of Sales Tax liabilities.

**Direct Deposit Correction Fund 0980** – To hold money returned by financial institutions which had been transmitted for direct deposit where problems prevented credit are given to individual depositors until the agency issuing the original payment makes the correction by transferring the funds back to the original issuing fund or the person for whom the original payment was made is refunded the money.

## **BASIS OF ACCOUNTING**

---

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the unmatured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

### **Budgets and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unobligated appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Since the Comptroller reports the entire cash balance for the general fund, budgetary accounts are eliminated for the Annual Financial Report.

## **ASSETS, LIABILITIES AND FUND EQUITY**

---

### **Assets**

#### ***Taxes Receivables***

Amounts shown as taxes receivable represent various state taxes due to the state at August 31, 2007.

### **Liabilities**

#### ***Accounts Payable***

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

#### ***Other Liabilities***

Other Liabilities are 4.03% of total liabilities and represent the value of unclaimed property at the balance sheet date.

#### ***Tax Refunds Payable***

Amounts shown as accounts payable represent taxes to be refunded at August 31, 2007.

#### ***Deferred Revenue***

Amounts shown as deferred revenue represent tax revenues earned but not available and resources received but not earned, ie., prepaid sales taxes, at August 31, 2007.

### **Fund Balance/Net Assets**

The difference between fund assets and liabilities is 'Net Assets' on the government-wide and fiduciary fund statements and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

#### ***Reservations of Fund Balance***

Fund Balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

#### ***Reserved for Encumbrances***

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

## INTERFUND TRANSACTIONS AND BALANCES

The Comptroller - Fiscal has the following transactions between and within state funds.

Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.

### NOTE 2: Capital Assets

Capital Assets are not shown on the Governmental Fund Financial Statements, but rather are included as governmental activities in the Government-wide Financial Statements. A summary of changes in Capital Assets for the year ended August 31, 2007, is presented below:

## NOTE 9: Contingent Liabilities

### PROTEST TAX PAYMENTS:

The protested tax balance in the General Revenue Fund and other funds at August 31, 2007 totaled \$118 million. These payments were protested under Tex. Tax Code Ann. Sec. 112.051 (Vernon 1982). Plaintiffs have filed lawsuits seeking refunds for franchise, sales, insurance, and pipeline utility taxes totaling \$693 million. The outcome of this litigation is indeterminate and the amount of the liability to the state, if any, cannot be reasonably estimated.

The entire activity of the State's General Revenue Fund will be reflected in the State of Texas Comprehensive Annual Financial Report for the Year Ended August 31, 2007.

## **NOTE 22: Management Discussion and Analysis**

The state's general fund balance increased from \$5.0 billion balance in fiscal 2006 to \$7.9 billion in fiscal 2007. Revenues were up by \$2.1 billion, the majority of which is due to tax revenue increases. In addition, transfers from the state's general fund to the foundation school fund were \$2.4 billion higher in fiscal 2007 than fiscal 2006. This is due to increased funding of local school districts. This increase reflects the cost of meeting projected enrollment growth and enhanced facilities funding.

The Economic Stabilization Fund had an increase of \$646 million transferred from the General Revenue Fund. The Texas Constitution mandates that if oil or natural gas taxes exceed the net amount received in fiscal 1987, an amount equal to 75 percent of the excess must be transferred to the state's Economic Stabilization Fund (ESF) from the General Revenue Fund. The transfer is made in the subsequent year, thus in fiscal year 2006, both oil and gas taxes exceeded the amount collected in fiscal 1987, resulting in a transfer. Additionally, the increase in oil and gas tax collections resulted in a significant increase in the transfer to the ESF.

A new special revenue fund this year is the Property Tax Relief Fund which was set up to reduce school district maintenance and operations tax rates. In FY07 it received \$719 million from increases in cigarette, cigar and tobacco products taxes. It also receives proceeds from motor vehicle sales taxes and will receive additional funding from franchise taxes In FY08.

## NOTE 27: Taxes Receivables/Payables

### A. Taxes Receivable

The Comptroller-Fiscal collects certain taxes for the State of Texas. Taxes receivable represent amounts due to the State at August 31, for revenues earned in the current fiscal year that will be collected in the future. The receivables have been recorded net of allowances for uncollectible accounts. Revenue is recorded on the governmental fund financial statements using the modified accrual basis of accounting for amounts due to the State of Texas at August 31 that are considered as “available” (e.g. received by the State within approximately 60 days after that date). Revenue earned but not “available” at August 31 is recorded as deferred revenue. Prepaid taxes are also recorded as deferred revenue.

On the government-wide financial statements a corresponding amount is recorded as revenue using the accrual basis of accounting, which includes revenue earned at fiscal year end regardless if it is available. Deferred revenue includes only the prepaid taxes that have not been earned by fiscal year end. Taxes receivable are the same for both modified and full accrual basis.

See Schedule 5 for tax revenues and deferred revenues presented on both full accrual and modified accrual basis. The full accrual basis is reported on the government-wide financial statements in the State of Texas Comprehensive Annual Financial Report.

Taxes receivable, as reported in the General Fund (Exhibit I), are detailed by tax type as follows:

<u>Tax Type</u>	<u>Net Taxes Receivable</u>
Sales and Use Tax	\$1,402,570,008.06
Motor Vehicle & MFG Housing	88,045,151.66
Motor Fuels	236,530,592.48
Oil & Natural Gas Production	407,746,362.57
Franchise	487,590,953.79
Insurance	121,348,449.98
Cigarette & Tobacco	389,301.71
Other	212,905,151.16
Total Net Taxes Receivable	<u>\$2,957,125,971.40</u>
<u>As Reported on the Financial Statements</u>	
Current Taxes Receivable	\$2,494,362,205.83
Noncurrent Taxes Receivable	<u>462,763,765.57</u>
Total Net Taxes Receivable	<u>\$2,957,125,971.40</u>

## B. Tax Refunds Payable

The amount shown as Tax Refund Payable and reported in the General Revenue fund (Exhibit I) represents tax refunds payable to taxpayers as of August 31, 2007. These payable amounts are detailed by tax type as follows:

<b>Tax Type</b>	<b>Amount</b>
Sales and Use Tax	\$ 29,079,476.43
Motor Vehicle & MFG Housing	457,607.27
Motor Fuels	1,623,438.31
Oil & Natural Gas Production	11,697,875.64
Franchise	48,354,902.61
Insurance	2,477,158.89
Cigarette & Tobacco	119,695.54
Other	315,795.54
Total Taxes Payable	<u>\$ 94,125,950.23</u>

### NOTE 28: Contested Taxes

Taxpayers may petition for a formal hearing before an independent administrative law judge if they wish to challenge a tax liability assessed by the state. If the request for a determination hearing is received within a specified time, the taxpayer does not have to pay the tax until a final decision is reached. Collectibility of these assessments is dependent upon the decisions of administrative law judges. These assessments are not recognized as tax revenue until the administrative hearing is final. Therefore, these amounts are not included in the receivables reported in the financial statements. As of August 31, 2007, the redetermination hearings process had an estimated \$530 million.

### NOTE 29: Deferred Revenue

The deferred revenue of \$2.468 billion consists of \$251 million tax prepayments that have not been earned, and \$2.217 billion revenues earned but not available to finance expenditures of the current fiscal period. See Schedule 5 for details on deferred revenue.

### NOTE 30: Unclaimed Property

The State holds certain property that is escheated to the State in the absence of legal claimants or heirs. Although a rightful owner can reclaim escheat property unto perpetuity, large portions of escheated property are never reclaimed. Additionally, the revenue generated from escheat property has always exceeded the amount needed to pay current claims. In fiscal year 2007, the unclaimed property fund received \$323 million of gross revenues, made \$123 million of claimant payments and transferred \$198 million to the general fund. The claimant liability in the general fund of \$110 million represents the probable amount that will be reclaimed and paid to claimants in the following year. As of August 31, 2007, a balance of \$20 million in marketable securities and mutual funds held in trust. The State also holds an insignificant amount of real property such as jewelry.

# Notes to the Financial Statements

## NOTE 1: Summary of Significant Accounting Policies

### GENERAL INTRODUCTION

---

The Comptroller - Treasury Fiscal is an agency of the State of Texas and its financial records comply with the state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements of State Agencies.

Effective September 1, 1996, the constitutional office of the Treasurer was abolished and the powers, duties, obligations, rights and contracts of the Treasurer was transferred to and assumed by the State Comptroller of Public Accounts.

There are no component units in which the Comptroller - Treasury Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

### FUND STRUCTURE

---

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

### GOVERNMENTAL FUND TYPES

#### *General Fund*

The general fund is used to account for all financial resources of the state except those required to be accounted for in another fund.

#### *Permanent Funds*

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state's programs.

### FIDUCIARY FUND TYPES

#### *Agency Funds*

Agency funds are used to account for assets held as an agent for individuals, other government entities, and/or other funds. These funds are custodial in nature and do not involve measurement of results of operations.

#### *Private-Purpose Trust Funds*

Agencies use private-purpose trust funds to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

## **BASIS OF ACCOUNTING**

---

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All governmental fund types and agency funds are accounted for on the modified basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the unmatured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

## **BUDGETS AND BUDGETARY ACCOUNTING**

---

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (The General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

## **ASSETS, LIABILITIES AND FUND EQUITY**

---

### **ASSETS**

#### ***Investments***

Investments are stated at fair value in all funds in accordance with GASB Statement 31 – Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

#### ***Securities Lending Collateral***

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

#### ***Interest and Dividend Receivables***

This includes interest and dividends accrued on investments at year-end that will not be deposited to the Fund until after the fiscal year.

#### ***Investment Trade Receivables***

This represents investment sales that occurred on or before fiscal year end for which cash payment will be received after fiscal year end.

### **LIABILITIES**

#### ***Accounts Payable***

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

#### ***Notes Payable***

State of Texas Tax and Revenue Anticipation Notes are recorded at par. The bond proceeds are accounted for as an “Other Financing Source” in the Tax And Revenue Anticipation Note Fund 577 when received, and expenditures for payment of principal and interest are recorded in the Tax And Revenue Anticipation Note Fund 577 when paid.

#### ***Investment Trade Payables***

This represents the liability for investment purchases that occurred on or before fiscal year end for which cash payment will be received after fiscal year end.

## FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is ‘Net Assets’ on the government-wide, proprietary and fiduciary fund statements, and the ‘Fund Balance’ is the difference between fund assets and liabilities on the enterprise fund statements.

### *Reservations of Fund Balance*

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

### *Unreserved/Undesignated*

This represents the unappropriated balance at year end.

### *Restricted Net Assets*

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

### *Unrestricted Net Assets*

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

## INTERFUND ACTIVITIES AND BALANCES

The Treasury has the following types of transactions between funds:

- (1) Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund

The composition of the agency’s Interfund activities and balances are presented in Note 8.

## NOTE 2: Capital Assets

(Not Applicable)

## NOTE 3: Deposits, Investments & Repurchase Agreements

All monies in funds established in the Treasury by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

### Investment Authority

Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. direct security repurchase agreements;
3. reverse repurchase agreements;
4. direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its’ agencies and instrumentalities;
5. bankers’ acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;

UNAUDITED  
**Comptroller Treasury – Fiscal (311)**

6. commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity; and,
7. contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Treasury's marketable securities portfolio at a specified price over a specified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

No more than 20% of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.

Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

There were no significant violations of legal provisions during the period.

The Trust Company's contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to offset the costs of the services received. As these investment transactions occur, the Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day. The Trust Company met those requirements throughout Fiscal Year 2007.

**Collateralization and Risk Categorization** - In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized 105% by the pledging, to the Comptroller, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U. S. Treasury and most Agency Obligations, including certain mortgage backed securities pledged @125%, and securities issued by state agencies and political subdivisions within the State. All securities pledged to the Comptroller must be held by a third-party custodian bank doing business in the State through a main office or one or more branches, any Federal Reserve Bank, the Texas Treasury Safekeeping Trust Company, any Federal Home Loan Bank or in the vault of Treasury Operations at the State Comptroller of Public Accounts.

Securities pledged as collateral on August 31, 2007 were categorized as follows:

Based on an opinion letter received by the Treasury from the Federal Deposit Insurance Corporation, it is the policy of the Treasury to collateralize bank deposits based on a collected funds basis.

During fiscal year 2007 no depository holding state funds failed.

All securities pledged to the Trust Company must be held by the Trust Company, a third-party bank that is an approved depository and approved custodian, any Federal Reserve Bank, Federal Home Loan Bank or in the vault of the Treasury. The Trust Company has contracted with financial institutions to collateralize Trust Company deposits in excess of depository insurance.

State statute permits depository institutions to select the bank that may serve as their third-party custodian for collateral pledged by that institution to the Comptroller. These banks must be approved depositories and approved custodians with capital and surplus of \$5,000,000 or more.

All deposits in financial institutions for Comptroller custodial operations, as of August 31, 2007 were fully secured by FDIC insurance and securities pledged to the Comptroller.

*Credit risk* is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Pursuant to section 404.024(a) and (b), treasury funds may be invested in fully collateralized repurchase agreements secured by obligations of the U.S., its agencies, or Government Sponsored Enterprises (GSEs), including mortgage-backed securities of such agencies and GSEs, as set out in section 404.001 of the Government Code. The Comptroller may purchase direct obligations of or obligations, the principal and interest of which are guaranteed by the U.S.; and direct obligations of, or obligations guaranteed by U.S. agencies or GSEs. Mortgage-backed securities are eligible for purchase except those specifically prohibited by section 404.024 (e) of the Government Code. Treasury funds may invest in commercial paper that, has received the highest short-term credit rating by a nationally recognized investment rating organization or “NRSRO”. “Highest short-term credit rating” includes at least one of the following short-term credit ratings, Moody’s (P-1), Standard & Poor’s (A-1), or Fitch, Inc. (F-1). Money market funds must be rated AAAM by a NRSRO. The U.S. agencies, the Government mortgage-backed securities, and the underlying securities on the Repurchase agreements that are not rated, are issued by Government Sponsored Enterprises that are rated AAA. The Treasury portfolio is rated AA+ by Standard & Poor’s. The following table lists Standard & Poor’s credit rating by investment type for the Treasury Pool securities that are subject to credit risk.

As of August 31, 2007, the credit quality distribution for securities with credit risk exposure was as follows.

*Concentration of credit risk* is the risk of loss attributable to the magnitude of investment in a single issuer. The Comptroller places no limit on the amount the Treasury Pool may invest on any one issuer. More than 5 percent of the Treasury Pool investments are with the Federal Home Loan Bank, the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation.

As of August 31, 2007, the concentration of credit risk is as follows.

Fund	Issuer	Carrying Value	% of Total Portfolio
Treasury Portfolio	Federal Home Loan Bank	\$5,301,749,205.31	24.22%
Treasury Portfolio	Federal Home Loan Mortgage Association	3,867,884,240.78	17.67%
Treasury Portfolio	Federal Home Loan Mortgage Corporation	2,375,153,497.07	10.85%

*Interest rate risk.* In accordance with its investment policy, the Treasury Pool manages its exposure to interest rate risk by maintaining a weighted-average maturity of no more than two (2) years. The following schedule reflects the average modified duration (a measure of the price sensitivity of a bond to interest rate movements) of the Treasury Pool by investment type and as a whole:

Investment Type	Modified Duration (Years)
U.S. Government Agencies	1.170
Government Mortgage Backed Securities	3.116
Commercial Paper	0.072
Repurchase Agreements	0.011
Small Business Administration	11.005
Israel Bonds	1.490
Placement of deposits with financial institutions	0.352
Treasury Portfolio Modified Duration	1.128

**Reverse Repurchase Agreements** - State statutes permit the Comptroller to enter into reverse repurchase agreements with state or national banks doing business in Texas or primary dealers. A reverse repurchase agreement is a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. Proceeds are invested in securities or repurchase agreements that usually mature at or almost at the same time as the reverse repurchase agreement and the proceeds from those securities will be used to liquidate the agreement resulting in a matched position. With a matched position there is minimal market risk because the Treasurer will hold securities to maturity and liquidate them at face value.

Reverse Repurchase Agreements are secured by the Treasury assigning U.S. Government agency or Treasury securities and are carried at the amount at which the securities will subsequently be repurchased as specified in the agreements. The cash received normally exceeds the fair value of securities assigned under Reverse Repurchase Agreements, providing the Treasury a margin against a decline in market values of the securities. If the dealers default on their obligations to resell these securities to the Treasurer or provide securities or cash of equal value, the Treasurer is subject to a potential economic loss equal to the difference between the market value plus accrued interest. It is the policy of the Comptroller to limit the margin provided to dealers in its reverse repurchase transactions.

The Treasury Pool may enter into reverse repurchase agreements for up to 35% of the pool's assets. The Treasury Pool's aggregate amount of reverse repurchase agreement obligations at August 31, 2007 was \$106,022,015, including accrued interest. The aggregate fair value of the securities underlying those agreements, including accrued interest, was \$106,155,932. The credit exposure at year-end was \$133,917.

**Securities Lending** - Section 404.102 of the Texas Government Code and the Endowment Funds' Investment Policies permit the lending of specific endowment fund securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The endowment funds' custodian, as security lending agent, lends securities of the type on loan at year-end for collateral in the form of cash or other securities that exceed the value of the securities on loan.

Types of securities loaned include U.S. equities, US government fixed income, U.S. agencies and corporate fixed income. On August 31, 2007 the fund received \$121,201,775.52 in cash collateral in exchange for securities with a fair value of \$119,459,756.33. The cash collateral is presented as an unclassified custodial credit risk. In addition the fund received \$4,996,005.59 in non-cash collateral in exchange for securities with a fair value of \$4,917,704.64.

Collateral includes, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus any accrued interest. Non-U.S. government securities are loaned versus collateral valued at 105% of the market value of the securities plus any accrued interest. At year-end, the endowment funds that participate in securities lending have no risk exposure to borrowers because the amounts the endowment funds owe the borrowers exceed the amounts the borrowers owe the endowment funds. The contract with the endowment funds' lending agent allows for indemnification where a client's securities are not returned due to insolvency of a borrower and the lending agent has failed to live up to its contractual responsibilities relating to the lending of those securities. There were no violations of legal or contractual provisions, any borrower or lending agent default losses. The agent's responsibilities include performing appropriate borrower and collateral investment credit analysis, demanding adequate types and levels of collateral, and complying with applicable Federal Financial Institutions Examinations Council regulations concerning securities lending.

All securities on loan can be terminated on demand by either Texas Trust or the borrower. The average term for the Texas Trust's overall loans was 99 days as of August 31, 2007. Cash collateral is invested in the lending agent's short-term investment fund, which at year-end has a weighted average maturity of 26 days, or in Term Loans in which the maturity of the cash investment follows the expected maturity of the loan. Collateral values are estimated by the custodian based on program wide collateralization levels. The endowment funds cannot pledge or sell collateral securities received unless the borrower defaults.

**Marketable Securities** - All United States Treasury and Agency Securities owned by the Comptroller are held in the Trust Company's book-entry account at the San Antonio Branch of the Federal Reserve Bank of Dallas where they are delivered versus payment. All bankers' acceptances and commercial paper are held by the State's agent in the States' name. A safe-keeping receipt is issued to the State acknowledging delivery.

**Investment in the Trust Company** - Section 404.105 of the Government Code authorizes the investment of state funds in the Trust Company. Through an order of the State Depository Board, dated October 31, 1986 the Comptroller has invested \$1,000,000 in the Trust Company. These funds are invested by the Trust Company in obligations authorized by law for the investment of funds held and managed by the Comptroller. Any net earnings attributable to this investment are credited and allocated annually to the Comptroller. The Trust Company's total contributed capital consists of one share of no par common stock for \$1,000,000 owned by the Comptroller. One share was authorized and issued.

## NOTE 4: Short-Term Debt: Tax and Revenue Anticipation Notes (TRAN)

Pursuant to Subchapter H of Chapter 404 of the Texas Government Code, the Comptroller is authorized to issue, sell, and deliver Tax and Revenue Anticipation Notes (TRAN) on behalf of the State. The TRAN are valid and binding obligations of the State, payable in accordance with the terms of the Comptroller's TRAN order. The TRAN are payable from transfers from the General Revenue Fund to a payment account. On August 22, 2006 (with an issue date of August 31, 2006), \$4,600,000,000.00 in State of Texas Tax and Revenue Anticipation Notes, Series 2006 were sold for the purpose of coordinating the cash flow of the State for the fiscal year ended August 31, 2007. Issuance of the TRAN also enhanced the State's ability to make timely payments of expenditures which are payable from the General Revenue Fund. The TRAN matured on August 31, 2007 and bore an interest rate of 4.50% and was priced to yield 3.592% as determined by the bids of the initial purchasers.

Gross note proceeds were \$4,641,479,584.23. Interest and other investment income on gross TRAN proceeds were \$243,130,327.13. Debt service payments included \$4,600,000,000.00 for principal and \$207,000,000.00 in interest expense.

On August 21, 2007, the State Comptroller sold \$4,900,000,000.00 of State of Texas Tax and Revenue Anticipation Notes, Series 2007. The TRAN are dated September 4, 2007 and mature on August 28, 2008. The TRAN bear interest at 4.50% and were priced to yield 3.728%. The notes are not subject to redemption prior to maturity.

On August 21, 2007, good faith funds in the amount of \$49,000,000.00 were received by the Comptroller and on September 4, 2007, the balance of the note proceeds, in the amount of \$4,888,098,608.94, was received.

### **NOTE 27: Cigarette Tax Recovery Trust Fund**

The Cigarette Stamp Tax Recovery Trust Fund (the “Trust Fund”) was created pursuant to Section 154.051 of the Texas Tax Code. On September 1, 1987, the Trust Fund replaced surety/payments bonds as a source of security for the State’s extension of credit to purchasers of cigarette tax stamps. The Trust Fund is maintained outside Treasury. The Trust Fund operates much like a self-insurance pool in that distributors deposit 20% of their desired line credit. The pool of deposits insures the State from loss in the event of default by any distributors. The distributors determine their respective level of participation.

### **NOTE 28: Texas Treasury Safekeeping Trust Company**

The Texas Treasury Safekeeping Trust Company (Texas Trust) was incorporated as a special-purpose trust company as outlined within section 404.102 of the Government Code. The purposes of the Texas Trust are to provide a means for the Comptroller to obtain direct access to services provided by the Federal Reserve System and to enable the Comptroller to manage, disburse, transfer, safekeep, and invest funds and securities more efficiently, economically and in accordance with the applicable governing investment guidelines.

## NOTE 1: Summary of Significant Accounting Policies

### GENERAL INTRODUCTION

---

The Texas Treasury Safekeeping Trust Company (“Texas Trust”) was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System. The 77th Legislature amended the Texas Trust statute and the Texas Trust began operations as a separate State entity on September 1, 2001. The Comptroller of Public Accounts (Comptroller) is the single shareholder of the Texas Trust and is charged with managing the Texas Trust. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

The Texas Trust is authorized to manage, disburse, transfer, safekeep and invest funds and securities provided by statute or belonging to state and local entities and gives the Comptroller direct access to services provided by the Federal Reserve System.

This section of the report includes only those funds and accounts from which the Texas Trust’s own departmental activities are financed. The Texas Trust’s fiscal function (Agency 930) is reported in a separate section of this report.

Due to the significant changes related to Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Texas Trust is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

### FUND STRUCTURE

---

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity. The funds and account groups used to reflect the Agency’s transactions are as follows:

#### Proprietary Fund Types

##### *Enterprise Funds*

Enterprise funds are used to report any activity for which a fee is charged to external users for services such as investment management and custodial services. The Texas Trust accounts for its daily operations using an enterprise fund. Operating revenues result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions or ancillary activities.

#### Fiduciary Fund Types

##### *Agency Funds*

Agencies use agency funds to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private

organizations, or other governments. The Texas Public Finance Authority Bond Escrow is used to hold funds for various defeased or refunded bonds.

#### ***External Investment Trust Funds***

Agencies use external investment trust funds to account for the state's external portion of investment pools reported by the sponsoring government. The Texas Government Investment Pools (TexPool and TexPool Prime) are local government investment pools administered by the Texas Treasury Safekeeping Trust Company – Comptroller's office. The investor base consists of cities, counties, school districts, institutions of higher education, special districts, and other public entities of Texas.

## **BASIS OF ACCOUNTING**

---

The Texas Trust financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All enterprise fund types are accounted for using the accrual basis of accounting. This includes unpaid Employee Compensable leave. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred.

The Texas Trust has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement Number 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting, which specifies that in addition to adopting all applicable GASB pronouncements, the Texas Trust has adopted Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure issued prior to November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Texas Trust has elected to follow only GASB Standards issued subsequent to November 30, 1989.

## **ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS**

---

### **ASSETS**

#### ***Cash and Cash Equivalents***

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

#### ***Investments***

Investments are reported at fair value based upon quoted market prices, with the change in fair value of investments captioned as Net Increase (Decrease) in the Fair Value of Investments, and interest income reported at the relevant stated interest rate.

## **NON-CURRENT RESTRICTED CASH AND CASH EQUIVALENTS**

---

The Texas Trust maintains an account with the Depository Trust Company (DTC). In accordance with the agreement between DTC and the Texas Trust, \$142,259 in cash was held at DTC as of August 31, 2007, in order to maintain the account.

The Texas Trust has agreed to maintain a \$5,000,000 clearing balance within its Federal Reserve account. Earnings on the clearing balance are used to offset fees associated with its use of Federal Reserve services. The Texas Trust Federal Reserve account balance reported in Restricted cash on August 31, 2007 was \$4,993,551.57 and is comprised exclusively of Texas Trust funds.

#### ***Non-Current Restricted Investments***

The Texas Trust has a balance of \$47,195.95 in stock with the Depository Trust Company as of August 31, 2007.

### Capital Assets

Assets with an initial, individual cost of more than \$5,000 for furniture and equipment and building and building improvements of more than \$100,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

## LIABILITIES

### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

### Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

## FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the enterprise fund statements.

### Invested In Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

### Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

### Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

### **NOTE 3: Deposits, Investments & Repurchase Agreements**

All monies in funds established in the Texas Trust by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

1. Investment Authority

A. Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. direct security repurchase agreements;
3. reverse repurchase agreements;
4. direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its' agencies and instrumentalities;
5. bankers' acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;
6. commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity;
7. and, contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Texas Trust's marketable securities portfolio at a specified price over a specified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

B. No more than 20% of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.

C. Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

2. There were no significant violations of legal provisions during the period.

3. DEPOSITS OF CASH IN BANK

A. **Collateralization and Risk Categorization** - In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized by the pledging, to the Texas Trust, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U.S. Government and most Agency Obligations, including certain mortgage backed securities issued by state agencies and political subdivisions within the State. All securities pledged to the Texas Trust must be held by any Federal Reserve Bank or one of its branches or the Texas Trust.

Securities pledged as collateral on August 31, 2007 were categorized under the Political Subdivision Securities, Moody's Investors Service Ratings AAA or U.S. Government Securities as U.S. Treasury Bills or U.S. Treasury Notes and Bonds.

<b>Total Cash at Bank</b>	\$10,021,108.80

The Trust Company's contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to partially offset the costs of the services received. As these investment transactions occur, the Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day.

#### 4. INVESTMENTS

As of August 31, 2007 the carrying and fair value of investments are presented below. All securities are insured or registered by the Texas Trust or its agent in the Texas Trust's name. Therefore there is no custodial credit risk.

**Credit risk** is the risk that an issuer or other counterparty to an investment will not fulfill its Obligation. The Trust Company only invests in overnight Repurchase Agreements which are collateralized by US Government Securities, US Government Agencies or Government Sponsored Enterprises. TexPool and TexPool Prime portfolios are designed and managed to ensure that they maintain a AAAm rating (or the equivalent) by a nationally recognized statistical rating organization ("NRSRO"). As of August 31, 2007 TexPool Prime's investments in commercial paper were rated A1 by Standard & Poor's, P-1 by Moody's Investors Service, and F-1 by Fitch ratings. Standard & Poor's ranks both TexPool and TexPool Prime with the highest principal stability rating of AAAm.

### Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in Governmental and/or Expendable Trust fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

## **NOTE 19: Employees Retirement Plans**

The State has joint contributory retirement plans for substantially all its employees. The Agency participates in the plans administered by the Employees Retirement System of Texas. Future pension costs are the liabilities of the Retirement System. The System does not account for each State agency separately. Annual financial reports prepared by the System include audited financial statements and actuarial assumptions and conclusions.

## **NOTE 20: Deferred Compensation**

State employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., sec 609.001. Two plans are available for employees' deferred compensation plan. Both plans are administered by the Employees Retirement System.

The state's 457 plan complies with the Internal Revenue Code Sec. 457. Deductions, purchased investments and earnings attributed to the 457 plan are the property of the state subject only to the claims of the state's general creditors. Participant's rights under the plan are equal to those of the general creditors of the state in an amount equal to the fair market value of the 457 account for each participant.

The state has no liability under the 457 plan and it is unlikely that plan assets will be used to satisfy the claims of general creditors in the future. The state also administers another plan, 'Teksaver' created in accordance with Internal Revenue Code Sec. 401(k). However, the assets of this plan do not belong to the state nor does the state have a liability related to this plan.

## **NOTE 22: Management Discussions and Allowances**

The following events occurred at our agency:

The Texas Treasury Safekeeping Trust Company ("Texas Trust") was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System, namely wire and custody services, and resulted in cost savings to the State of Texas. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

# Notes to the Financial Statements

## NOTE 1: Summary of Significant Accounting Policies

### ENTITY

---

The State Energy Conservation Office (SECO) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Agencies.

The function of the State Energy Conservation Office is to promote and provide for the efficient use of energy, while protecting human health and safety, and the environment. SECO administers and delivers a variety of energy efficiency and renewable programs that significantly impact energy cost and consumption in the institutional, industrial, transportation and residential sectors.

Due to the significant changes related to Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the State Energy Conservation Office is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

### FUND STRUCTURE

---

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

### GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

#### *General Revenue Fund*

The General Revenue Fund is the principle operating fund used to account for most of the state’s general activities. It accounts for all financial resources except those accounting for in other funds.

#### *Capital Assets Adjustment Fund Type*

Capital Assets Adjustment fund (Fund 9998) will be used to convert governmental fund types’ capital assets from modified accrual to full accrual.

#### *Long-Term Liability Adjustments*

Long-Term Liabilities Adjustment fund (Fund 9997) will be used to convert governmental fund types’ debt from modified accrual to full accrual.

## FIDUCIARY FUND TYPES

### *Agency Funds*

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

## BASIS OF ACCOUNTING

---

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Government fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation and unpaid Employee Compensable Leave. The activity will be recognized in these fund types.

## BUDGET AND BUDGETARY ACCOUNTING

---

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

## ASSETS, LIABILITIES, AND FUND BALANCES / NET ASSETS

---

### ASSETS

#### *Cash and Cash Equivalents*

Short-term investments with maturities of three months or less at the time of purchase are reported as cash equivalents.

#### *Accounts Receivables-Current*

Accounts Receivables are defined as an asset account reflecting amounts owed from private persons or organizations for goods and services furnished by a government.

#### *Federal Receivables-Current*

This represents federal grant reimbursements including indirect costs that have been earned but not received.

#### *Capital Assets*

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

## LIABILITIES

### *Accounts Payable*

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

### *Employees' Compensable Leave*

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

### *Due to Other Funds (Note 8)*

This represents the accrual at year-end of quasi-external transactions reimbursements and operating transfers.

## FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

Reservations for fund balance represent fund balances of governmental and fiduciary fund types that are legally restricted to a specific future use.

### *Reserved for Encumbrances*

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

### *Reserved for Non-Current Loans and Contracts*

A portion of fund balance reserved for advances to other funds, non-state agencies and governments do not represent expendable financial resources even though they are a component of net current assets. This account represents the non-current portion of the Lone STAR Revolving Loan Program.

### *Reserved for Non-Current Interfund Receivables*

A portion of fund balance reserved for advances to other funds and state agencies do not represent expendable financial resources even though they are a component of net current assets. This account represents the non-current portion of the Lone STAR Revolving Loan Program.

### *Unreserved/Undesignated*

This represents the unappropriated balance at year-end.

## INTERFUND ACTIVITIES AND BALANCES

The State Energy Conservation Office has the following types of transactions between funds:

Non-Current Interfund payables represents the non-current portion of the long-term Loan STAR Revolving Loan Program. If repayment is due during the current year or so on there after it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".

The composition of the agency's Interfund activities and balances are presented in Note 8.

## Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

## NOTE 8: Interfund Balances and Activities

As explained in Note 1 on Interfund Transactions and Balances there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Interfund Receivable or Interfund Payable
- Due From Other Agencies or Due To Other Agencies

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.

Individual balances and activity at August 31, 2007, follows:

Schedule 1A

**Schedule of Expenditures of Federal Awards – Notes**

For the Fiscal Year Ended August 31, 2007

**Note 1 – Non-Monetary Assistance**

The Comptroller's State Energy Conservation Office did not receive nonmonetary assistance for the reporting period.

**Note 2 – Reconciliation**

Below is a reconciliation of the total of federal pass-through and federal expenditures as reported on the Schedule of Federal Financial Assistance to the total of **federal revenues** and **federal grant pass-through revenues** as reported in the general-purpose financial statements. Generally, federal funds are not earned until expended; therefore, federal revenues equal federal expenditures for the reporting period.
